**LETTER OF RECOMMENDATION**

**RE: DR AKOJI CHUBIYOJO**

It is with pleasure I agreed to write this reference in favor of Dr AKOJI CHUBIYOJO

I have the privilege of knowing him from the beginning of his clinical training at the federal teaching hospital Ido Ekiti where the clinical arm of his school's medical training is domiciled

His preclinical academic records showed his to be in the top half of his class. He replicated this in the clinical training applying himself conscientiously to the rigors of academic and clinical training demands. He has acquired the requisite knowledge and clinical skills to function as a pre-registration doctor. He is an adaptable, dedicated, hardworking and efficient team player and will be an asset to your institution.

He is conscientious in patient care and is therefore a safe hand, open to training and improvement.

He also has good organizational and leadership skills which will be useful in any organization.

Without doubt, Dr AKOJI will be a good addition to your team and I have no reservation in recommending him for placement into your institution as a house officer.

Yours faithfully

**OMOTOLA O. OBAJOLOWO**
